

Riverwater Partners Attains B Corp™ Status

Socially responsible firm becomes Wisconsin's first investment advisor to join global movement of companies committed to using business as a “force for good”

MILWAUKEE ([PRWEB](#)) September 24, 2018 -- Riverwater Partners, a socially responsible investment advisory firm, has officially become the first Milwaukee company, and only investment advisor in Wisconsin, to achieve B Corp™ certification. B Corp Certification is for businesses what an organic seal is for food products: a corporation's commitment to meeting the highest standards of overall social and environmental performance, transparency and accountability. There are more than 2,600 Certified B Corporations in over 150 industries and 60 countries with 1 unifying goal – to redefine success in business.

“As Wisconsin’s only dedicated ESG (Environmental, Social and Governance) investor, achieving B Corp status is a natural extension of our values.” said Adam Peck, co-founder and Chief Investment Officer at Riverwater. “We are proud to join other business leaders in this global movement of people using business as a force for good™.”

To become certified, businesses must go through a rigorous assessment measuring the company’s governance, mission and impact on the community and environment. After careful review, those companies that score an 80 or higher are awarded B Corp status. Riverwater, a woman-owned firm that values diversity, service to the community and environmental stewardship, scored a 144 on the assessment.

“We encourage the companies we invest in to improve their environmental footprint, social impact and governance practices, all of which, studies have shown, have a positive impact on stock performance,” said Cindy Bohlen, Chief Mindfulness Officer at Riverwater “Achieving B Corp status confirms that we also adhere to the same standards.”
